

*"My name is Elizaveta Feodorova, I am 21 years old. In 2022 I graduate from the Graduate School of Performing Arts at the Faculty of Theater Studies, Management and Theatre Technologies; my scholarly supervisor is Dmitry Trubochkin.*

*I am doing research and writing a B.A. thesis on the topic "Karagöz in Mediterranean culture". In the focus of my interest is the shadow theater and its role in culture and society. I am involved in some practical research with students and partners of my Theatre School. The participation in The World Theatre Day 2022 will allow me to tell to colleagues about my research and creative activities, widen the context of my understanding of contemporary theatre, get new contacts and opportunities."*
